

MEET LEAH

After earning a Bachelor's degree in Interior Design at UC Davis, Leah Connolly worked for several designers in Sacramento before founding Studio Connolly in 2020. Leah is a Certified Interior Designer in the State of California, a LEED Green Associate, and a self-taught plant expert. She loves getting to know her clients and figuring out what they value in life and in their homes.

ABOUT STUDIO CONNOLLY

Studio Connolly creates comfortable, sustainable, vibrant homes that feel like “you.” We specialize in high end home remodels and furnishing projects in the Sacramento area.

We love to specify sustainably sourced wood, water efficient plumbing fixtures, LED lighting, natural rugs, and non-toxic paint to minimize environmental impact and improve indoor air quality. We've also partnered with other sustainability focused companies to reduce landfill waste as much as possible. And we consider the flow and functionality of your spaces to encourage better productivity and overall mental health.
